PROJECTS

Database Design   Salt Lake City, UT
Forbes Database Re-implementation: An insight   *Sept 2022 – Dec 2022*
- Re-implemented Forbes database using RDBMS for efficient data storage and retrieval.
- Database tables include information on billionaires, companies, universities, athletes, celebrities, most power people, and articles.
- User-friendly interface for easy data search, sort and filter.
- Implementation of data analytics and reporting for meaningful insights and visualizations.
- Constant updating and storing of historical data.

EXPERIENCE

RBR HOMES   Visakhapatnam, India
Lead Projects Operator   *June 2019 – May 2022*
- Employed data-driven approaches to evaluate the performance of sub-contractors and vendors, and select the most efficient and economical ones.
- Tracked and analyzed project metrics, such as cost, time, and quality, to optimize construction processes and minimize overruns.
- Identified potential risks and derived contingency plans accordingly.
- Utilized data analytics to make informed decisions on resource allocation and prioritize tasks for maximum impact.

RBR HOMES   Visakhapatnam, India
Project Management Consultant   *June 2018 – May 2019*
- Conducted financial and operational performance evaluations to ensure projects stayed on track and within budget constraints.
- Predicted expenses and determined appropriate budgets to effectively manage financial resources.
- Monitored labor performance and took measures to enhance productivity and reduce waste.
- Utilized comparative analysis to select the most efficient sub-contractors and vendors, resulting in improved project performance.

PERSONAL SNAPSHOT

- Date of Birth: November 17th , 1993
- Represented GITAM university in Inter-University Football Tournament (South Zone), Secured medals in Athletics.
- NSS Special camp (Youth for Child Education).
